General Terms and Warranty Conditions	51

HOW TO USE THE PRICE LIST? **IT'S SIMPLE!** FOLLOW THE INSTRUCTIONS BELOW!

01. Dimensions

Take the measurements for the selected pleated blind.

02. Price

Find the price for given dimensions in the price table, according to the price group **(PG)** of chosen fabric .

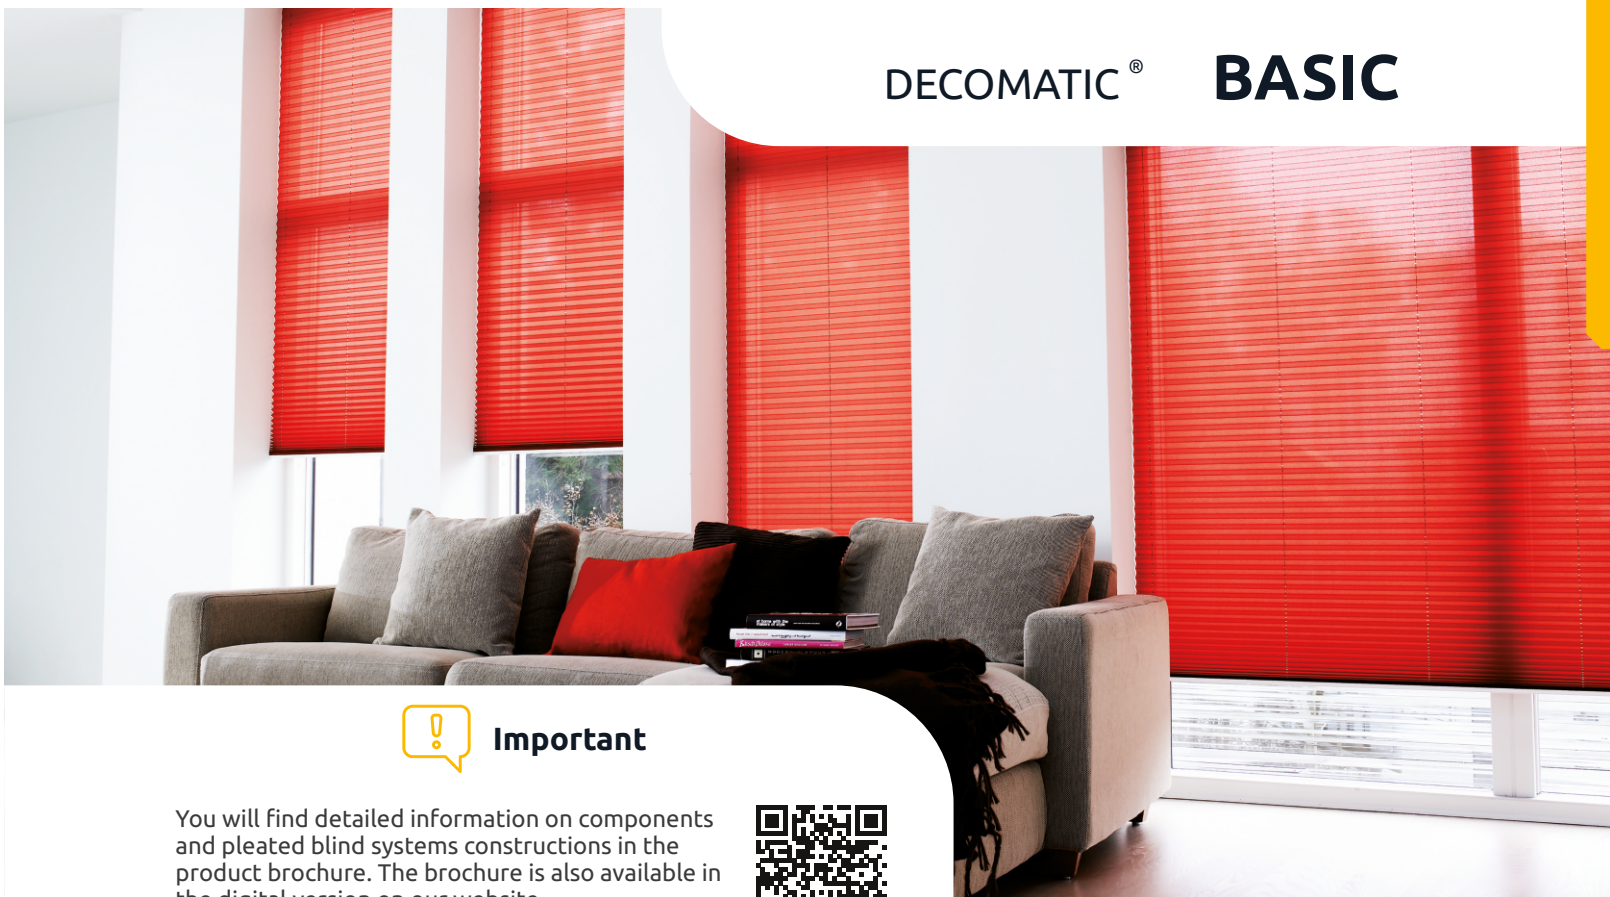

03. Extra charges

You will find extra charges for certain models, electric motors and controls and optional accessories in the extra charge section.

04. Important

Note the icons.    
You will find their meaning at the bottom of pages in the further part of the price list. If you have any questions, please contact our Customer Service.

 **Important**

You will find detailed information on components and pleated blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

 **Informations**

- 1 Standard elements used for fixing are mounting feet or clips. With a ready-made pleated blind you will receive a set of standard mounting parts necessary for mounting a certain pleated blind model.
- 2 The standard colors of the profile in the BASIC range are lacquered white, structured white and silver anodized. Other colors: lacquered beige, structured grey, structured anthracite and structured black are available at an extra charge in accordance with the surcharge table on page 9
- 3 For pleated blinds wider than 1,00m a PLUS profile 20 x 23mm (width x height) is used instead of the standard profile (17 mm height). It is possible to order pleated blinds with a width of less than 1.00 m with a reinforced profile for a surcharge according to the surcharge table on page 9 - simply tick the appropriate box on the order form.
- 4 Pleated blinds model: **P1415N BIS**, consist of two fabrics. To calculate the price of such a pleated blind summarise the basic pleated blind price with the first fabric and the basic pleated blind price with the second fabric, considering the fabric price group each time. This icon  will remind you to take into account the second fabric in the pricing.
- 5 Maximum possible fabric widths are given in the fabric collection books. If a pleated blind exceeds this value, the fabric may require a vertical connection.
- 6 Profiles can be powder coated in any RAL colour (individual pricing). Other components (end caps, mounting parts) are available in standard colours.
- 7 At customer's request we can modify a previously produced pleated blind. Such a pricing is prepared by our Customer Service. Modification in a pleated blind is made according to the applicable technology (e.g. decrease of blind, replacement of fabric or cords).

€	3,5	4,3	5,2	6,0	6,9	7,7	8,5	Reinforced profile used regular						

IMPORTANT: For widths of 1.00 m and over, a 20 x 22 mm reinforced profile is used as standard. It is possible to order a pleated blind with a width of less than 1.00 m with a reinforced profile for an extra charge according to the table above.

Price estimation step by step

Data for estimation of a sample roller-blind price are marked in red.

For the purposes of the calculation, we used following parameters:

Measurements: 78,6 cm x 142 cm
Model - P1410N (mit Zusatzprofil)
Fabric - S-0150 PL (PG-S)
Extra charge - „METALLGRIFF“

- 1 Take the measurements e.g. 78,6 cm x 142 cm (width x height)
- 2 Find the price in the price table, according to both: measurements rounded up and price group (PG) of a chosen fabric, e.g. (80 cm x 150 cm **129 €**)
- 3 Choose a suitable model, e.g. (p. 08) + extra charge for width (0.80 x 15 € = **12 €**)
- 4 Choose the additionally: „METALLGRIFF“ 2 pc. (2 x 8 € = **16 €**)
- 5 Recommended retail price including VAT (129 € + 12 € + 16 € = **157 €**)

Did you know that?

Is it possible to manufacture pleated blinds with dimensions larger than those specified in the basic table? It is possible to connect the fabric panels (fabric overlap). If you have any questions, please contact our Customer Service

*instead of a regular reinforced profile

DECOMATIC® COMFORT

Important

You will find detailed information on components and pleated blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Informations

- 1 Standard elements used for fixing are mounting feet or clips. With a ready-made pleated blind you will receive a set of standard mounting parts necessary for mounting a certain pleated blind model.
- 2 For pleated blinds wider than 1,10 m a PLUS profile 20 x 22 mm (width x height) is used instead of standard profile (16 mm height). It is possible to order pleated blinds with a width of less than 1.00 m with a reinforced profile for a surcharge according to the surcharge table on page 9 - simply tick the appropriate box on the order form.
- 3 The models marked with symbols **P1615 BIS, P1620, P1622, P1626, P1720, P1722, P1725, P1820, P1822, P1825, P1920, P1922, P1925, P2620, P2622, P2626**, consist of two fabrics. To calculate the price of such a pleated blind summarise the basic pleated blind price with the first fabric and the basic pleated blind price with the second fabric, considering the fabric price group each time. This icon will remind you to take into account the second fabric in the pricing.
- 4 Maximum possible fabric widths are given in the fabric collection books. If a pleated blind exceeds this value, the fabric may require a vertical connection.
- 5 Profiles can be powder coated in any RAL colour (individual pricing). Other components (end caps, mounting parts) are available in standard colours.
- 6 The COMFORT range of pleated blinds with a grip uses internal springs to regulate the tension of the cords. The use of springs has a significant effect on the lightness and smoothness of pleated blind handling, and also, in case of a mistake or inaccurate height measurement, the springs level out the difference during installation, regardless of whether the difference in measurement was plus or minus the actual dimension.
- 7 At customer's request we can modify a previously produced pleated blind. Such a pricing is prepared by our Customer Service. Modification in a pleated blind is made according to the applicable technology (e.g. decrease of blind, replacement of fabric or cords).

Did you know that?

In the production of pleated blind we rely on the leading in Europe system DECOMATIC® of German company BENTHIN. This system guarantees the highest quality of details and modern solutions, translating into reliable use for many years.

Price estimation step by step

For the purposes of the calculation, we used following parameters:

Dimensions - 87,5 cm x 109,3 cm
Model - P1705
Fabric - 1-1350 PL (PG: 1)
Extra charge - mounting feet for windows with narrow glazing bead

1

Take a measurement, 87,5 cm x 109,3 cm (width x height)

2

Find the price in the price table, according to both: measurements rounded up and price group (PG) of a chosen fabric, e.g. 90 cm x 110 cm (183 €)

3

Choose the model of pleated blind (page 14-20) P1705 (extra charge for the model 28,00 €)

4

Additional option: mounting feet for windows with narrow glazing beads 1 set (2,40 €)

5

Recommended retail price including VAT (183 € + 28 € + 2,40 €) **213,46 €**

COMFORT PROGRAM

1/2

Models **P1615 BIS**, **P1620**, **P1622**, **P1626** are double fabric models. Please remember to add prices for both fabrics considering their price groups for the full size of the pleated blind.

+ **30,00 €** /prm. of a blind's width

P1902

Open at one side - upwards, with top and bottom fixed profile.

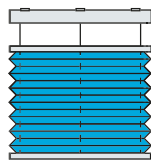

90,00 €
+ **46,00 €** /prm. of a blind's width

P1905

Open at one side - upwards, with top fixed profile and side guiding.

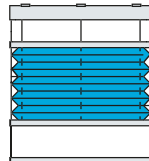

90,00 €
+ **30,00 €** /prm. of a blind's width

P1910

Open at both sides - upwards, and downwards with top fixed profile and side guiding.

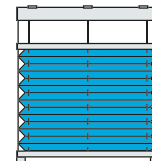

63,00 €
+ **46,00 €** /prm. of a blind's width

P1912

Open at both sides - upwards, and downwards with top and bottom fixed profile and side guiding.

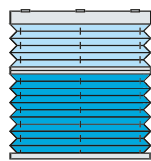

90,00 €
+ **58,00 €** /prm. of a blind's width

P1915

Open at both sides - upwards, and downwards with top fixed profile and side guiding.

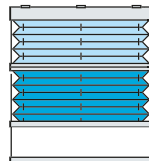

90,00 €
+ **46,00 €** /prm. of a blind's width

P1920 ^{1/2}

Double fabric, open at one side - upwards.

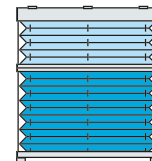

63,00 €
+ **30,00 €** /prm. of a blind's width

P1922 ^{1/2}

Double fabric, open at one side - upwards, with top and bottom fixed profile.

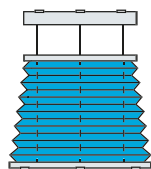

90,00 €
+ **30,00 €** /prm. of a blind's width

P1925 ^{1/2}

Double fabric, open at one side - upwards, with top fixed profile and side guiding.

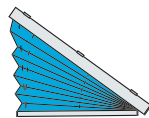

90,00 €
+ **30,00 €** /prm. of a blind's width)

P1930

Special form: trapezoid with double-sided slant, open at one side - downwards.

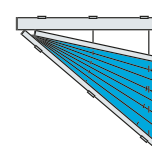

63,00 €
+ **30,00 €** /prm. of a blind's width
+ **105,00 €** /m² (min. 87,00 €)

P1940

Special form: triangle with one-sided slant, open at one side - upwards.

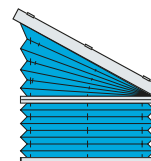

63,00 €
+ **30,00 €** /prm. of a blind's width
+ **130,00 €** /m² (min. 100,00 €)

P1941

Special form: triangle with one-sided slant, open at one side - downwards.

63,00 €
+ **30,00 €** /prm. of a blind's width
+ **130,00 €** /m² (min. 100,00 €)

P1950

Special form: one-sided opening - upwards, with a fixed upper profile

90,00 €
+ **46,00 €** /Lfm. Anlagenbreite
+ **130,00 €** /m²

Models **P2620**, **P2621**, **P2622** and **P2626** are double fabric models. Please remember to add prices for both fabrics considering their price groups for the full size of the pleated blind.

DECOMATIC® PLAFOND

Important

You will find detailed information on components and pleated blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Informations

- 1 Standard elements used for fixing are mounting clips. With a ready-made pleated blind you will receive a set of standard mounting parts necessary for mounting a certain pleated blind model.
- 2 Profiles can be powder coated in any RAL colour (individual pricing). Other components (end caps, mounting parts) are available in standard colours.
- 3 At customer's request we can modify a previously produced pleated blind. Such a pricing is prepared by our Customer Service. Modification in a pleated blind is made according to the applicable technology (e.g. decrease of blind, replacement of fabric or cords)

Did you know that?

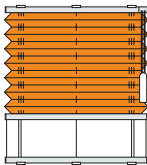

Pleated blinds for ceiling windows and winter gardens are available in various operation variants. Thanks to application of additional side guiding it is possible to install them in the horizontal position. Maximum roof tilt angle is 90°.

+ 30,00 €/prm. of a blind's width
+ 65,00 €/m2 (min. 130 € max. 263 €)

IMPORTANT: The price does not include cranks (look at the table below)

CRANK LENGTH [cm]	MANUAL CRANK	MOTORISED CRANK
100	111,00 € / pc.	253,00 € / pc.
150	114,00 € / pc.	257,00 € / pc.
200	118,00 € / pc.	262,00 € / pc.
		

WINTER GARDENS AND SKYLIGHTS

SMART PROGRAM

! Important

You will find detailed information on components and pleated blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

! Informationen

- Standard elements used for fixing are mounting feet or clips. With a ready-made pleated blind you will receive a set of standard mounting parts necessary for mounting a certain pleated blind model.
- For pleated blinds wider than 1,00m a PLUS profile 23 x 23mm (width x height) is used instead of the standard profile (17 mm height). It is possible to order pleated blinds with a width of less than 1.00 m with a reinforced profile for a surcharge according to the surcharge table on page 9 - simply tick the appropriate box on the order form.
- The models marked with symbols **PSM 420**, consist of two fabrics. To calculate the price of such a pleated blind summarise the basic pleated blind price with the first fabric and the basic pleated blind price with the second fabric, considering the fabric price group each time. This icon  will remind you to take into account the second fabric in the pricing.
- The fabric width in a pleated blind is equal to the width of the profiles, meaning it is exactly the same as the ordered dimension of the pleat. The maximum fabric widths for pleated blinds are provided on the catalog pages for each collection. In the case of pleats with ordered dimensions exceeding these values, the pleat may require vertical fabric joining (for an additional charge).
- Profiles can be powder coated in any RAL colour (individual pricing). Other components (end caps, mounting parts) are available in standard colours.
- At customer's request we can modify a previously produced pleated blind. Such a pricing is prepared by our Customer Service. Modification in a pleated blind is made according to the applicable technology (e.g. decrease of blind, replacement of fabric or cords).

Colours of the SMART profiles

Powder coated profiles:

Wood-like coating profiles*

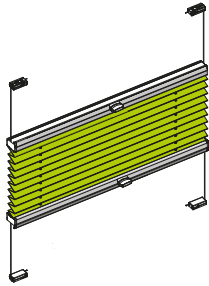

* only for handle operated pleated blinds

** veneer not available for the model PSM 601

PROGRAM SMART

BASIC TABLE

Recommended retail prices including VAT

! Maximum production dimensions for each model are specified in the product brochure.
Check it out!

Mounting parts*: mounting foot, clips, brackets
Types of operation*: handle operation, cord operation

*depending on a pleated blind model.
Detailed information in the product brochure and fabric catalogue.

Did you know that?

In the production of pleated blind we rely on the leading in Europe system DECOMATIC® of German company BENTHIN. This system guarantees the highest quality of details and modern solutions, translating into reliable use for many years.

Price estimation step by step

For the purposes of the calculation, we used following parameters:

Dimensions - 87,5 cm x 109,3 cm
Model - PSM100
Fabric - 1-1350 PL (PG: 1)

1

Take a measurement, 87,5 cm x 109,3 cm (width x height)

2

Find the price in the price table, according to both: measurements rounded up and price group (PG) of a chosen fabric, e.g. 90 cm x 110 cm (137 €)

3

Choose the model of pleated blind (page 14-20) P1705 (extra charge for the model 25,00 €)

4

Recommended retail price including VAT (137 € + 25 € = 162 €)

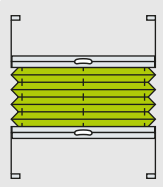

How to consider the extra charges which depends to the width or height of the pleated blind? **It's easy!**
E.g. **PSM105** with ordering width 849 mm:
(0,90m x 40 €) = 36,00 €

PLEATED 16 mm

Important

Detailed information about profile dimensions, components, and the pleated blind construction can be found in the 16mm pleated blind fabric collection and in the product brochure. The product brochure is available in electronic form on our website.

Informations

- 1 By default, 16mm pleated blinds are attached with mounting brackets. With the finished pleated blind, you will receive a set of standard brackets that are necessary for mounting the pleated blind. The other available mounting option for 16mm pleated blinds is non-invasive, self-adhesive mounting strips - Model P4616.
- 2 The 16mm pleated blinds are available in three colors: RAL 9016 white lacquered, silver anodized E6/EV1, and RAL 7016 anthracite gray sand structure, available only for the P4615 model. All plastic parts (mounting brackets, operating handles, side caps) are colormatched to the profile. An exception is the anthracite gray textured color, where the components are in black.
- 3 The fabric width in a pleated blind is 3 mm narrower than the ordered size due to the thickness of the side caps that close the pleated profiles.

PROGRAM SKYLIGHT

Wichtig

You will find detailed information on components and pleated blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Colours of the SKYLIGHT profiles

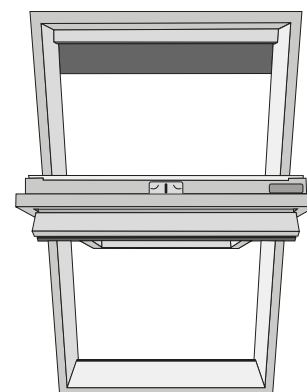

E6/EV1

SILVER
ANODISED

Informations

- 1 With a ready-made pleated blind you will receive a set of standard mounting parts necessary for mounting a given pleated blind model.
- 2 The price table for roof roller blinds consists of size modules. Each module reflects a specific size (width - height) of the roof window. The dimensions of the modules match the dimensions of most roof windows offered by major European manufacturers.
- 3 When placing an order for a roof pleated blind, please provide dimensions - width and height of the inner side of a window frame. To exclude any mistakes, it is also important to provide the symbol, type as well as the production year of a roof window in order form notes. This information can be found on the rating plate located on the window frame.
- 4 At customer's request we can modify a previously produced pleated blind. Such a pricing is prepared by our Customer Service. Modification in a pleated blind is made according to the applicable technology (e.g. decrease of blind, replacement of fabric or cords).

Did you know that?

Simple mounting, performed precisely according to instruction does not affect any window components whose damage might result in losing warranty rights for the window.

GENERAL TERMS AND CONDITIONS OF WARRANTY

- 1** SHADOW-SYSTEM Sp. z o.o. with its seat in Kawle Dolne 4F, 83-304, Przodkowo, hereafter referred to as Guarantor, warrants good quality and smooth operation of a new product, according to standards provided for a given type of products, subject to their intended use, under normal conditions.
- 2** SHADOW-SYSTEM Sp. z o.o. provides the warranty for:
 - 36 months from the date of purchase system for pleated blind, roller blind venetian blinds,
 - 12 months from the date of purchase of fabrics, wooden and aluminium slats.
- 3** The warranty covers only defects in product resulting from the Manufacturer's fault. For such it shall be deemed the use of defective materials, production faults and construction errors.
- 4** During a physical reception of product in the Guarantor's headquarter or on the product delivery day by a freight company, the Buyer is obliged to check the quality, dimensions and the completeness of delivered product according to the order, otherwise the right to make a complaint regarding quality and delivery completeness will be forfeit.
- 5** Upon discovery of a defect in a product, the Buyer is obliged to notify it to the Guarantor within 14 days. Failure to comply with anyone of the above-mentioned conditions will result in losing the warranty rights.
- 6** All claims under the warranty are considered in the Guarantor's headquarter only (SHADOW-SYSTEM Sp. z o.o., Kawle Dolne 4F, 83-304 Przodkowo). The Parties shall individually agree on the way for returning a product to the above headquarter.
- 7** The basis for making a claim under the warranty is a properly filled in warranty card, original bill of purchase (receipt or invoice) and a completely filled in complaint document.
- 8** The completed complaint form, scanned bill of purchase as well as comprehensive photographic documentation shall be sent to the e-mail address: info@shadow-system.pl
- 9** Guarantor is obliged to investigate the legitimacy of a claim under the warranty within 14 days after receiving a written complaint, and in case if visual inspection of goods with defect is necessary, within 14 days after the date of returning goods to the Guarantor's headquarter.
- 10** Guarantor shall not be liable in case of:
 - mechanical damage or damage due to misuse or negligent handling, storing or using under improper conditions,
 - natural wear and tear of original elements, parts and accessories caused by their normal use,
 - modification of original product and interference into its structure by third parties, as well as use of other spare parts or accessories than those recommended by the Guarantor,
 - any repairs made by unauthorised personnel,
 - mounting inconsistent with good construction practices and with manufacturer's instructions, ,
 - use inconsistent with the user manual,
 - smells emitted by the product, coming from components used for the production (e.g. natural smell of bamboo slats),
 - natural small plane deformation of aluminium slats, wooden slats and fabrics surfaces,
 - differences in shades and texture of wooden slats due to natural characteristics of timber,
 - discolouration and other changes on the surface of elements caused by weather conditions,
 - differences in colours between a ready-made product and an outdated sampler or catalogue,
 - maintenance, cleaning the products, battery replacement in electrical components,
 - damage due to random incidents (fire, flood, lightning, low or too high temperatures and any other natural disasters).
- 11** Products exceeding minimum and maximum recommended dimensions specified in the technical information shall not be subject to the General Terms and Conditions of Warranty and are made to the sole responsibility of the Buyer. In such case the Guarantor shall make every effort to provide a fully functional product.
- 12** If the complaint is accepted, the Guarantor agrees to repair or replace the defective product as soon as possible.
- 13** Should a repair or replacement be impossible or should it require excessive costs, the Guarantor undertakes to take defective product back and return the purchase cost.
- 14** If the complaint is accepted and it is impossible to remove the manufacturing defects of the aluminium slats, wooden slats or fabrics because of e.g. withdrawal from the offer within the warranty period, the Guarantor may suggest a replacement for a colour-similar component.
- 15** In case the complaint is rejected, the product is returned at the Buyer's expense.
- 16** The warranty for the consumer goods within the meaning of the Act of 27.07.2002 on specific conditions of consumer sales and on the amendment to the Civil Code (Dz.U. 2002/141/1176), shall not exclude, limit or suspend the Customer rights when the provided product is inconsistent with the purchase agreement.
