HOW TO USE THE PRICE LIST?  
**IT'S SIMPLE!**  
FOLLOW THE INSTRUCTIONS BELOW!

## 01. Dimensions

Choose the system as well as the roller blind model and take the measurements.

## 02. Price

Find the price of given dimensions in the price table, according to the price group **(PG)** of the chosen fabric.

## 03. Extra charges

You will find extra charges for certain models, electric drives and controls and optional accessories in the extra charge section.

## 04. Important

Note the icons.   You will find their meaning at the bottom of pages in the further part of the price list. If you have any questions, please contact our Customer Service.

WOODEN BLINDS **25 mm****Important**

You will find detailed information on dimensions, components and horizontal blinds constructions in the product brochure. The brochure is also available in the digital version on our website.

**Informations**

- 1 The standard installation bracket is a universal twist hanger that enables blind installation both on the wall and on the ceiling. The quantity of hangers received in a set will correspond to the width and weight of the blind. You can change to a different installation holder if required, thus enabling you to make the correct choice in the ordering form.
- 2 The width ordered is the total width of the blind. The blind height is measured when **in the closed position**.
- 3 Minor changes in colours and texture are permissible between individual slats.
- 4 The average weight of a square metre of the 25 mm wooden blind is about 2 kg.
- 5 A front covering strip of the upper rail is typically used; a curtain type cover (with side finishing) is available for an extra cost.
- 6 Each slat colour typically has matching colours of the upper rail, lower beam, textiles and operating bells. It is possible to modify the standard option by adding the correct information in the ordering form (entering selected colours in comments and, for instance, an operating bell shape).

**Basic table and extra charges**

Basic table for model:  
**HJ 25-01** (page 06 - 07).

Extra charges for models:  
**HJ 25-03, HJ 25-05** (page 08 - 09).

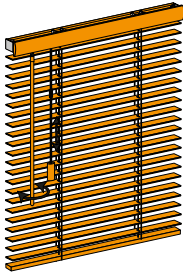

Extra charges for models with electric motors:  
**HJ 25-05** (page 38 - 42).

**25 mm**

# WOODEN BLINDS 25 mm

Did you know that?

Special non-invasive holders enable the installation of the blind on the window-leaf without the need for drilling holes in the window frame. A blind installed in this way may be dismantled at any time quickly and simply, leaving no trace on the window frame.

## WOODEN BLINDS 50 mm

### Important

You will find detailed information on dimensions, components and horizontal blinds constructions in the product brochure. The brochure is also available in the digital version on our website.

### Basic table and extra charges

Basic table for model:  
**HJ 50-02** (page 11 - 13).

Extra charges for models:  
**HJ 50-03, HJ 50-04, HJ 50-05, HJ 50-06**  
(page 13 - 14).

Extra charges for models with electric motors:  
**HJ 50-05** (page 38 - 42).

### Informations

- 1 The standard installation holder is a universal twist hanger that enables blind installation both on the wall and on the ceiling. The quantity of hangers received in a set will correspond to the width and weight of the blind. You can change to a different installation holder if required, thus enabling you to make the correct choice in the ordering form.
- 2 The width ordered is the total width of the blind. The blind height is measured when **in the closed position**.
- 3 Minor changes in colours and texture are permissible between individual slats.
- 4 The average weight of a square metre of the 50 mm wooden blind is about 2 kg. (lamele z kolekcji Rustic - 3 kg.)
- 5 A front covering strip of the upper rail is typically used; a curtain type cover (with side finishing) is available for an extra cost.
- 6 Each slat colour typically has matching colours of the upper rail, lower beam, textiles and operating bells. It is possible to modify the standard option by adding the correct information in the ordering form (entering selected colours in comments and, for instance, an operating bell shape).
- 7 A price list of Retro system blinds with a wooden 50 mm slat is available on pages 18 - 19.

### Important!

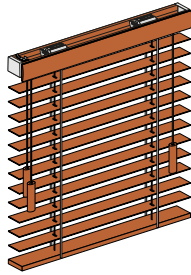

Slats from FAUX WOOD – PCV collection (S-5080, S-5081, S-5082, S-5083, S-5084) made from foamed PCV, which may be used in rooms with higher humidity (e.g. bathrooms, kitchens). However, long-term exposure to the sun and higher temperatures cause PCV slats to deform and are not covered by our warranty. In order to minimise the deformation of slats, we use more ladders than wooden slats.

# 50 mm

# WOODEN BLINDS 50 mm

## BASIC TABLE

Recommended retail prices including VAT

Width: \* max. 240 - 270 cm (depending on the slat type/ number)  
(max. 360 cm - lamele 5020, 5021 i 5029)  
Height: \* max. 400 cm  
Types of operation: cord-cord, endless chain, endless cord,  
crank, electric motor  
Mounting: wall, ceiling or window recess.

\* Depending on a blind model and slat

**145 € /Stk.**

**Price estimation step by step**

For the purposes of the calculation, we used the following parameters:  
**Measurements** - 142 cm x 197 cm  
**Model** - HJ 50-06 (endless cord)  
**Slat** - 0-5125 (PG:0)  
**Extra charge** - Ladder tape 38 mm

- Take the measurements e.g. 142 cm x 197 cm (width x height)
- Find the price in the price table, according to both: measurements rounded up and price group 150 cm x 200 cm (662 €)
- Choose a suitable roller blind model HJ 50-06 - 152 €
- Choose the Ladder tape 38 mm additionally 28 €
- Recommended retail price including VAT (662 + 152 + 28) 842 €

**Did you know that?**

The Shadow-System also offers blinds in special forms, although the production technology of these forms is quite complex. If you are interested in ordering such a blind, then please do contact the Customer Service Office. In order to confirm any possibility of putting together a request and obtaining a pricing, please send a technical drawing to us with all the dimensions and options which you would like to use in a given blind.

**TECHNICAL CATALOGUE**

To complement the collection of slats, we have prepared a catalog of technical components that will greatly facilitate the presentation of our range of horizontal blinds.

## Important

You will find detailed information on dimensions, components and horizontal blinds constructions in the product brochure. The brochure is also available in the digital version on our website.

## Basic table and extra charges

Basic table for models:  
**HJR 50-01, HJR 50-02** (page 18 - 19),  
**AJR 50-01, AJR 50-02** (page 20 - 21).

## Informations

- 1 The standard installation bracket is a universal twist hanger that enables blind installation both on the wall and on the ceiling. The quantity of hangers received in a set will correspond to the width and weight of the blind. You can change to a different installation holder if required, thus enabling you to make the correct choice in the ordering form.
- 2 The width ordered is the total width of the blind. The blind height is measured when **in the closed position**.
- 3 Minor changes in colours and texture are permissible between individual slats.
- 4 The average weight of a square metre of the 50 mm wooden blind is about 2 kg. (lamelle from Rustic collection - 3 kg.)
- 5 Each slat colour typically has matching colours of the upper rail, lower beam, textiles and operating bells. It is possible to modify the standard option by adding the correct information in the ordering form (entering selected colours in comments and, for instance, an operating bell shape).

### Please remember...

Retro blinds typically have tape ladders with a width of 25 mm. It is possible to equip Retro blinds free of charge with tape ladders with a width of 38 mm.

# ALUMINIUM BLINDS 25 / 16 mm

## Important

You will find detailed information on dimensions, components and horizontal blinds constructions in the product brochure. The brochure is also available in the digital version on our website.

## Basic table and extra charges

Basic table for models:  
**AJ 25-01** (page 23 - 24),  
**AJ 16-01** (page 25).

Extra charges for models:  
**AJ 25-02 / AJ 16-02,**  
**AJ 25-03 / AJ 16-03,**  
**AJ 25-05 / AJ 16-05,**  
**AJ 25-01D / AJ 16-01D** (page 26).

Extra charges for models with electric motors:  
**AJ 25-05 / AJ 16-05** (page 38 - 42).

## Informations

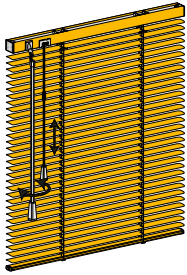

- 1** The standard installation holder is a universal twist hanger that enables blind installation both on the wall and on the ceiling. The quantity of hangers received in a set will correspond to the width and weight of the blind. You can change to a different installation holder if required, thus enabling you to make the correct choice in the ordering form.
- 2** The width ordered is the total width of the blind. The blind height is measured when **in the closed position**.
- 3** The average weight of a square metre of the 25 mm wooden blind is about 2 kg.
- 4** Each slat colour typically has matching colours of the upper rail, lower beam, textiles and operating bells. It is possible to modify the standard option by adding the correct information in the ordering form (entering selected colours in comments and, for instance, an operating bell shape).

16 mm  
25 mm

# ALUMINIUM BLINDS 25 mm

## BASIC TABLE

Recommended retail prices including VAT

Width: \* max. 300 cm  
 Height: \* max. 300 cm  
 Types of operation: cord-rod, Monomagic, endless chain, motor  
 Mounting: wall, ceiling or window frame.

\* Depending on a blind model and slat

Prices in the table refer to following models:  
**cord-rod AJ 16-01 with ladder cord**  
 Extra charges for other operation types on page 26.

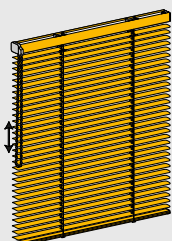

Extra charges for **electric drives and controls** on page 38 - 42.

**Did you know that?**

Aluminium blinds with 16 mm slats are manufactured based on the components for 25 mm blinds – upper rail, lower beam and operating mechanisms are the same as for each 25 mm aluminium blind.

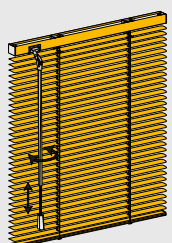

# ALUMINIUM BLINDS 25/16 mm

## ADDITIONAL OPTIONS

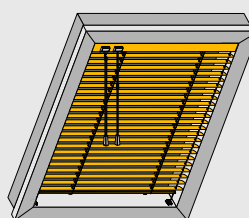

**Mono-Chain Blind**  
Endless chain operation  
Extra charge for  
AJ 25-03 / AJ 16-03 types

WIDTH [MM]	EXTRA CHARGE
500 - 800	66 €
801 - 1300	73 €
1301 - 1900	78 €
1901 - 2500	84 €
2501 - 3000	91 €

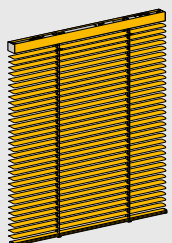

**Monomagic Blind**  
Operation of the cord integrated into  
the turning rod. Extra charge for  
AJ 25-02 / AJ 16-02 types

**19,00 €**

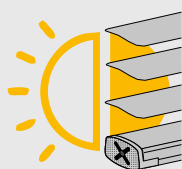

**Roof Blind**  
Cord-rod operation  
Extra charge for  
AJ 25-01D / AJ 16-01D types

**+ 25%** from  
Basic table - PG S

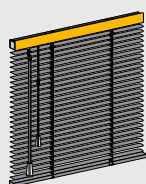

**Electric Blind**  
Extra charge for  
AJ 25-05 / AJ 16-05 types  
(price does not include the motor price)

WIDTH [MM]	EXTRA CHARGE
500 - 800	66 €
801 - 1300	73 €

1901 - 2500	84 €
2501 - 3000	91 €

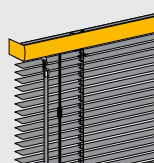

**Blackout blind**  
extra charge

**+ 15%** from  
Basic table - PG S

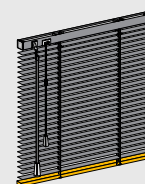

**Wooden cover**  
for top rail

**10,80 € /prm**

**Wooden cover**  
Set of side covers  
**10,80 € /prm**  
(wooden cover price)  
**+ 19,00 € /Set (L+R)**

**Wooden bottom rail**

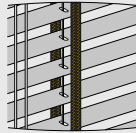

**14,70 € /prm**

**Did you  
know that?**

Our prices also include non-invasive mounting for horizontal blinds. 25 mm. This is a simple and quick method of blind installation. The use of these types of holders make it possible to dismantle a blind at any time, leaving no traces that are usually formed as a result of traditional invasive installation. Two types of holders are available: a hanger for mounting the blinds on the window-leaf and a non-invasive holder for lateral guide mounting.

# ALUMINIUM BLINDS 25 / 16 mm

## ADDITIONAL OPTIONS

**Ladder tape**  
12 mm  
(only for AJ 25-01,  
cord-rod)

Colours of the ladder tapes are listed in  
the catalogue of wooden and aluminium blinds

### Price estimation step by step

1

Take the  
measurements e.g.  
78,6 cm x 142 cm  
(width x height)

2

Find the price in the price  
table, according to both:  
measurements rounded  
up and price group  
80 cm x 150 cm (150 €)

For the purposes of the calculation, we  
used the following parameters:

**Measurements** - 78,6 cm x 142 cm

**Model** - AJ 25-03 (Endless chain)

**Slat** - S-0507 AL (PG:S)

**Extra charge** - Side guiding  
and non-invasive clamp for side guiding

3

Choose a suitable  
roller blind model)  
AJ 25-03 (66€)

4

Choose the Side guiding (24 €)  
and non-invasive holders  
for PB additionally  
11,50 €

5

Recommended retail price  
including VAT  
(155 + 66 + 24 + 11,50)=  
251,50 €

Element used as a standard installation (optional).

\* Available colours: white (WE), grey (GR), brown (BR), black (SH)

\*\* Available colours: white (WE), grey (GR), brown (BR), black (SH), anthracite grey (AN), beige (BE)

## ! Important

You will find detailed information on dimensions, components and horizontal blinds constructions in the product brochure. The brochure is also available in the digital version on our website.

## ! Basic table and extra charges

Basic table for model:  
**AJ 50-02** (page 30 - 32).

Extra charges for models:  
**AJ 50-03, AJ 50-04, AJ 50-05, AJ 50-06** (page 33).

Extra charges for models with electric motors:  
**AJ 50-05** (page 38 - 42).

## ! Informations

- 1 Die Standard-Montagevorrichtung ist ein universeller Twist-Bügel, mit dem die Jalousie sowohl an der Wand als auch an der Decke angebracht werden kann. Die Zahl der mitgelieferten Bügel hängt von der Breite und vom Gewicht der Jalousie ab. Sie können über das Bestellformular auch eine andere Montagevorrichtung wählen.
- 2 Die bei der Bestellung angegebene Breite ist die Gesamtbreite der Jalousie. Die Höhe der Jalousie wird **in geschlossener Position gemessen**.
- 3 Das Durchschnittsgewicht von Aluminiumjalousien 50 mm pro 1m<sup>2</sup> beträgt ca. 1 kg.
- 4 Die Farben der oberen Schiene, des Balkens unten, der Textilien und der Bedienknäufe werden standardmäßig an die Lamellenfarbe angepasst. Die Standardoption kann durch entsprechende Angaben im Bestellformular nach Wunsch geändert werden (bitte im Feld Anmerkungen die gewünschte Farbe und z.B. Form des Bedienknaufs angeben).
- 5 Die Preisliste der Retro-Jalousien mit Holzlamellen 50 mm ist auf page 18-19 einsehbar.

## OPERATION CRANKS

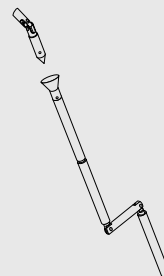

code 3284

Crank  
(permanently fixed)

**69 €** /pc

code 3285

Crank  
(removable)

**145 €** /pc

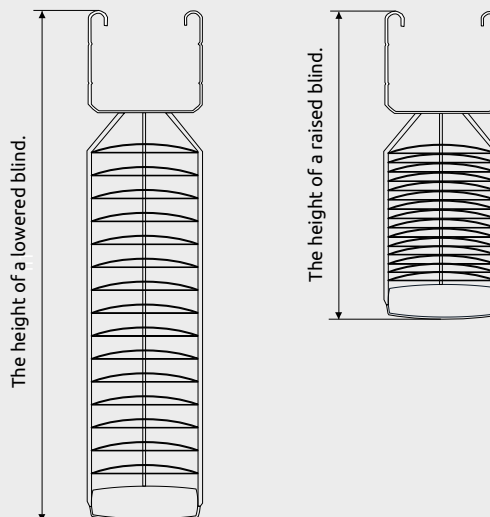

Element used as a standard installation (optional).

## HEIGHT OF THE PACKAGE

### BLINDS PACKAGE WHAT IT IS?

The tables below indicate the height of the package of pulled-up blinds. The values given differ according to the type of textiles: ladder cord or ladder tape. These must be taken into account when installing the blind over a fully opening window or balcony door. There is no single suggested lintel size and the height of the lintel is based on the designers' original assumptions. Therefore, in order to avoid a situation where the installed blind will restrict to open the window/balcony sashes fully, it is essential to use the tables below. A separate table applies for Retro blinds.

## ALUMINIUM BLINDS

### ALUMINIUM BLINDS 25 mm

HEIGHT OF BLIND [CM]	HEIGHT OF PACKAGE [CM] *	
	LADDER CORD	LADDER TAPE
50	8 cm	9 cm

# MOTIONBLINDS BLUETOOTH MOTORS

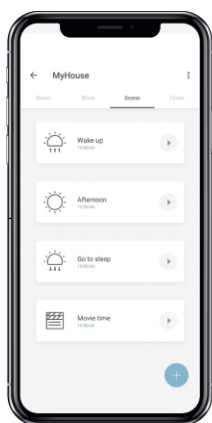

**MotionBlinds Bluetooth Motors**  
Set up in a minute by smartphone

Bluetooth motors can be set up, operated and automated with timers by smartphone through the MotionBlinds Bluetooth app, without the need for a bridge, any registration or a remote control. Operation away from home and smart home integration requires installation of the Wi-Fi bridge.

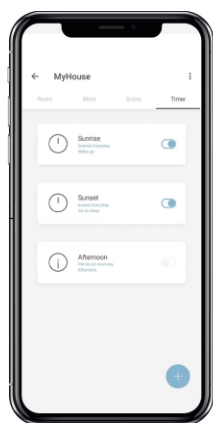

## COULISSE MOBILE APPLICATION - MOTION BLINDS HIGHER LEVEL OF OPERATION.

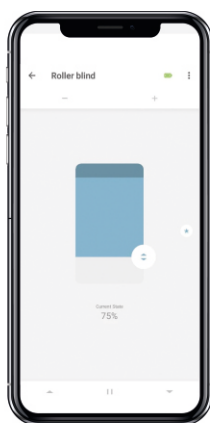

Simultaneous control of many roller blinds by easy to use Motion Blinds application. Make your home automated thanks to programmed operation modes and the timer. Control the interior climate by reducing the loss of thermal energy. Find proper balance between amount of light and privacy protection. Thanks to the Motion Blinds application you set optimal position of roller blinds and check the current battery charge level

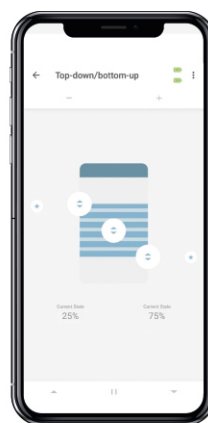

Set scenes with pre-set positions

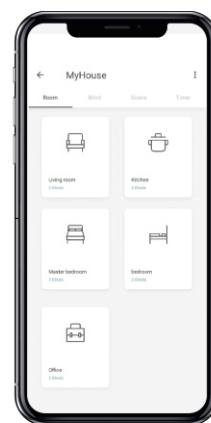

Add timers to automate scenes

Create rooms with multiple blinds

Send the blind to any desired position

Compatible with different types of blinds

Download the Motion Blinds application on a mobile device from the App Store or Google Play shop!

# GENERAL WARRANTY TERMS AND CONDITIONS

- 1** SHADOW-SYSTEM Sp. z o.o. with its seat in Kawle Dolne 4F, 83-304, Przodkowo, hereafter referred to as Guarantor, warrants good quality and smooth operation of a new product, according to standards provided for a given type of products, subject to their intended use, under normal conditions.
- 2** SHADOW-SYSTEM Sp. z o.o. provides the warranty for:
  - 36 months from the date of purchase system for pleated blind, roller blind venetian blinds,
  - 12 months from the date of purchase of fabrics, wooden and aluminium slats.
- 3** The warranty covers only defects in product resulting from the Manufacturer's fault. For such it shall be deemed the use of defective materials, production faults and construction errors.
- 4** During a physical reception of product in the Guarantor's headquarter or on the product delivery day by a freight company, the Buyer is obliged to check the quality, dimensions and the completeness of delivered product according to the order, otherwise the right to make a complaint regarding quality and delivery completeness will be forfeit.
- 5** Upon discovery of a defect in a product, the Buyer is obliged to notify it to the Guarantor within 14 days. Failure to comply with anyone of the abovementioned conditions will result in losing the warranty rights.
- 6** All claims under the warranty are considered in the Guarantor's headquarter only (SHADOW-SYSTEM Sp. z o.o., Kawle Dolne 4F, 83-304 Przodkowo). The Parties shall individually agree on the way for returning a product to the above headquarter.
- 7** The basis for making a claim under the warranty is a properly filled in warranty card, original bill of purchase (receipt or invoice) and a completely filled in complaint document..
- 8** The completed complaint form, scanned bill of purchase as well as comprehensive photographic documentation shall be sent to the e-mail address: [info@shadow-system.pl](mailto:info@shadow-system.pl)
- 9** Guarantor is obliged to investigate the legitimacy of a claim under the warranty within 14 days after receiving a written complaint, and in case if visual inspection of goods with defect is necessary, within 14 days after the date of returning goods to the Guarantor's headquarter.
- 10** Guarantor shall not be liable in case of:
  - Mechanical damage or damage due to misuse or negligent handling, storing or using under improper conditions,
  - Natural wear and tear of original elements, parts and accessories caused by their normal use,
  - Modification of original product and interference into its structure by third parties, as well as use of other spare parts or accessories than those recommended by the Guarantor
  - Any repairs made by unauthorised personnel
  - Mounting inconsistent with good construction practices and with manufacturer's instructions,
  - Use inconsistent with the user manual,
  - Smells emitted by the product, coming from components used for the production (e.g. natural smell of bamboo slats),
  - Natural small plane deformation of aluminium slats, wooden slats and fabrics surfaces,
  - Differences in shades and texture of wooden slats due to natural characteristics of timber,
  - Discolouration and other changes on the surface of elements caused by weather conditions,
  - Differences in colours between a ready-made product and an outdated sampler or catalogue,
  - Maintenance, cleaning the products, battery replacement in electrical components,
  - Damage due to random incidents (fire, flood, lightning, low or too high temperatures and any other natural disasters).
  - Deformations of the PVC slats' surface, including 'warping' of slats between the ladder cords,
  - Bending of the bottom rail for wooden and aluminum blinds – when using (5, 6, or 7 ladder cords)
- 11** Products exceeding minimum and maximum recommended dimensions specified in the technical information shall not be subject to the General Terms and Conditions of Warranty and are made to the sole responsibility of the Buyer. In such case the Guarantor shall make every effort to provide a fully functional product.
- 12** If the complaint is accepted, the Guarantor agrees to repair or replace the defective product as soon as possible.
- 13** Should a repair or replacement be impossible or should it require excessive costs, the Guarantor undertakes to take defective product back and return the purchase cost.
- 14** If the complaint is accepted and it is impossible to remove the manufacturing defects of the aluminium slats, wooden slats or fabrics because of e.g. withdrawal from the offer within the warranty period, the Guarantor may suggest a replacement for a colour-similar component.
- 15** In case the complaint is rejected, the product is returned at the Buyer's expense
- 16** The warranty for the consumer goods within the meaning of the Act of 27.07.2002 on specific conditions of consumer sales and on the amendment to the Civil Code (Dz.U. 2002/141/1176), shall not exclude, limit or suspend the Customer rights when the provided product is inconsistent with the purchase agreement.
