HOW TO USE THE PRICE LIST?
IT'S SIMPLE!
FOLLOW THE INSTRUCTIONS BELOW!

01. Dimensions

Choose the system as well as the roller blind model and take the measurements.

02. Price

Find the price of given dimensions in the price table, according to the price group (**PG**) of the chosen fabric.

03. Extra charges

You will find extra charges for certain models, electric drives and controls and optional accessories in the extra charge section.

04. Important

Note the icons.    code 1234
You will find their meaning at the bottom of pages in the further part of the price list. If you have any questions, please contact our Customer Service.

DECOMATIC® CLASSIC

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for models:
RC10, RC20 (page 06-08).

Extra charges for support profile and cassettes for models:
RC11, RC12, RC13, RC21, RC22, RC23, RC61, RC62, RC63 (page 08).

Extra charges for models with electric motors:
RC60, RC61, RC62, RC63 (pages 46 - 49).

Informations

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window frame by clips, brackets or non-invasive block holders. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure.
- 3 Maximum possible individual fabric widths are given in the fabric collection book. If a roller blind exceeds this value, the fabric may require a horizontal joining.

Element used as a standard installation in certain type of roller blinds. It should not be included in the valuation - only if ordered separately. More information can be found in the Product Brochure.

code 1234

Additional elements were marked with indexes which can be used when placing orders. You can use the assigned index number instead of providing the full name of the element.

Did you know that?

In the roller blind set you will receive standard elements necessary for mounting a given model. If an optional mounting type is required, the chosen bracket is to be calculated extra. Information of the standard and optional mounting brackets for individual roller blinds models can be found in the product brochure.

Price estimation step by step

Data for estimation of a sample roller-blind price are marked in red.

For the purposes of the calculation, we used following parameters:

Measurements - 118,5 cm x 143 cm
Model - RC11
Fabric - S-0884 RO (PG:S)
Extra charge - side guiding

- 1 Take the measurements e.g.
118,5 cm x 143 cm
(width x height)
- 2 Find the price in the price table, according to both: measurements rounded up and price group (PG) of a chosen fabric, e.g.
S-0884 RO – price group S
120 cm x 150 cm (100,00 €)
- 3 Choose a suitable roller blind model, e.g.
RC11 - basic table price
+ extra charge for **support profile**
(30,00 €)
- 4 Choose the **side guiding** additionally
(26,00 €)
- 5 Recommended retail price including VAT
(100 € + 30 € + 26 €)
156,00 €

IMPORTANT

It is necessary to add a price for a chosen motor for price estimation of a roller blind with an electric motor. The extra charge includes the installation of the drive in the roller blind and determination of its end positions. Prices for electric motors and controls can be found on page 56-65.

DECOMATIC® MEDIUM

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RM10 (pages 13-15).

Extra charges for support profile and cassettes for models:
RM11, RM12, RM13, RM61, RM62, RM63 (page 15).

Extra charges for models with electric motors:
RM60, RM61, RM62, RM63 (pages 46 - 49).

Informations

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window recess by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure.
- 3 Maximum possible individual fabric widths are given in the fabric collection book. If a roller blind exceeds this value, the fabric may require a horizontal joining.

of roller blind width

* operation chain length - (0,75 x roller blind height) x2

**Did you
know that?**

In the roller blind set you will receive standard elements necessary for mounting a given model. If an optional mounting type is required, the chosen bracket is to be calculated extra. Information of the standard and optional mounting brackets for individual roller blinds models can be found in the product brochure.

* Chain or chain connector separate purchase price

Element used as a standard installation in certain type of roller blinds. It should not be included in the valuation - only if ordered separately. More information can be found in the Product Brochure.

code **1234**

Additional elements were marked with indexes which can be used when placing orders. You can use the assigned index number instead of providing the full name of the element.

IMPORTANT

It is necessary to add a price for a chosen motor for price estimation of a roller blind with an electric motor. The extra charge includes the installation of the drive in the roller blind and determination of its end positions. Prices for electric motors and controls can be found on page 56-65.

DECOMATIC® MEDIUM PLUS

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RMP10 (pages 13-15).

Extra charges for support profile and cassettes for models:
RMP11, RMP12, RMP13, RMP14, RMP61, RMP62, RMP63, RMP64 (page 15).

Extra charges for models with electric motors:
RM60, RM61, RM62, RM63, RMP64 (pages 46 - 49).

Informations

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window recess by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure.
- 3 Maximum possible individual fabric widths are given in the fabric collection book. If a roller blind exceeds this value, the fabric may require a horizontal joining.

Additional elements were marked with indexes which can be used when placing orders. You can use the assigned index number instead of providing the full name of the element.

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RL10 (pages 25-27).

Extra charges for support profile and cassettes for models:
RL11, RL12, RL13, RL61, RL62, RL63 (page 28).

Extra charges for models with electric motors:
RL60, RL61, RL62, RL63 (pages 46 + 49).

Informations

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall or ceiling by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure.
- 3 Maximum possible individual fabric widths are given in the fabric collection book. If a roller blind exceeds this value, the fabric may require a horizontal joining.

Prices in the table refer to following model:
chain-operated RL10
 Extra charges for other operation types on page 28.

Extra charges for **electric motors and controls** on pages 46 - 49.

Additional elements were marked with indexes which can be used when placing orders. You can use the assigned index number instead of providing the full name of the element.

SYSTEM SMART S

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RSM-10S (pages. 31-32)

Extra charges for support profile, cassette and „SLOW” spring:
RSM-11S, RSM-13S (page 33)

Extra charges for models with electric motors:
RSM-60S, RSM-61S, RSM-63S (page 56-65).

Informations

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window frame by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure.
- 3 Maximum possible individual fabric widths are given in the fabric collection book. If a roller blind exceeds this value, the fabric may require a horizontal joining.

Price estimation step by step

Data for estimation of a sample roller-blind price are marked in red.

For the purposes of the calculation, we used the following parameters:

Measurements - 135 cm x 119 cm
Model - RSM21
Fabric - S-0884 RO (PG:S)
Extra charge - decorative set

- 1 Take the measurements e.g. 135 cm x 119 cm (width x height)
- 2 Find the price in the price table, according to both: measurements rounded up and price group 140 cm x 120 cm (123 €)
- 3 Choose a suitable roller blind model
RSM21 - price from basic table
+ extra charge for support profile (27 €)
+ extra charge for „SLOW” spring (49 €)
- 4 Choose the decorative set additionally (82 €)
- 5 Recommended retail price including VAT (123 € + 27 € + 49 € + 82 €) 281 €

IMPORTANT

It is necessary to add a price for a chosen motor for price estimation of a roller blind with an electric motor. The extra charge includes the installation of the motor in the roller blind and determination of its end positions. Prices for electric motors and controls can be found on page 56-65.

SYSTEM **SMART M**

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RSM-10M (page 36)

Extra charges for support profile, cassette and „SLOW“ spring:
RSM-11M, RSM-13M (page 39)

Extra charges for models with electric motors :
RSM-60M, RSM-61M, RSM-63M (page 56 - 65).

Informationen

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window frame by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure .
- 3 Maximum possible individual fabric widths are given in the fabric collection book . If a roller blind exceeds this value, the fabric may require a horizontal joining.

SYSTEM SMART L

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RSM-10L (page 41)

Extra charges for support profile, cassette and „SLOW“ spring:
RSM-11L, RSM1-13L (page 44 -45)

Extra charges for models with electric motors:
RSM-60L, RSM-61L, RSM-63L (page 56 - 65).

Informationen

- 1 The calculation includes external dimensions of a roller blind inclusive end caps.
- 2 A roller blind can be mounted to a wall, ceiling or window frame by clips or brackets. You will receive a set of standard elements necessary for mounting a given model in the roller blind set. You will find information on standard mounting brackets for individual models of roller blinds in our product brochure .
- 3 Maximum possible individual fabric widths are given in the fabric collection book . If a roller blind exceeds this value, the fabric may require a horizontal joining.

MINI ROLLER BLINDS

Important

You will find detailed information on dimensions, cassettes, components and roller blind systems constructions in the product brochure. The brochure is also available in the digital version on our website.

Basic table and extra charges

Basic table for model:
RN ULTIMATE (pages 47-48)

Extra charges for model:
RN ULTIMATE (page 47)

Basic table for models:
DECOMATIC® RN116, RN156 (pages 50 - 51)

Extra charges for models:
DECOMATIC® RN115, RN155 (page 52)

Information

- 1 Price calculation is based on ordering dimensions of the roller blind. Ordering dimensions for RN Ultimate are dimensions of the fabric, for RN116 and RN156 are dimensions of glazing bead, for RN115 and RN155 is a total size of the roller blind including end caps.
- 2 Mini roller blinds should be mounted to the glazing beads or window frame with the included mounting screws. Covering profiles are mounted with a double-sided tape.
- 3 For models RN Ultimate, RN116 and RN 156, PVC covering profiles are included to the price.
- 4 The arch covering PVC profiles are recommended for windows with rounded glazing beads.

Colours of the MINI ROLLER BLINDS profiles

Ultimate:

WHITE

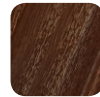

ALUMINIUM

GOLDEN OAK

MOOR OAK

WALNUT

MAHOGANY

WINCHESTER

Basic table and extra charges

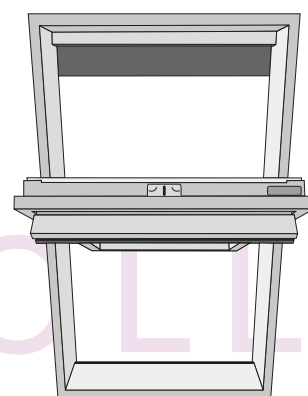

Basic table for the model:
Rd10 - Skylight Tensioned roller blind, (page 54).

Basic table for the model:
Rd20 - Skylight Tilt-Break roller blind, (page 55).

Informations

- 1 The price table for roof roller blinds consists of size modules. Each module represents a specific size (width + height) of a roof window. The module sizes overlap with dimensions of most roof windows offered by the biggest European producers.
- 2 Apart from giving exact dimensions of a roller blind while placing an order for a roof roller blind, please provide the symbol and the type of the roof window. To exclude any possible mistakes please provide information on the window production year as well. Based on these information our employees will set the proper dimensions for the roller blind to fit into the window.

Coulisse MOBILE APPLICATION - MOTION BLINDS HIGHER LEVEL OF OPERATION.

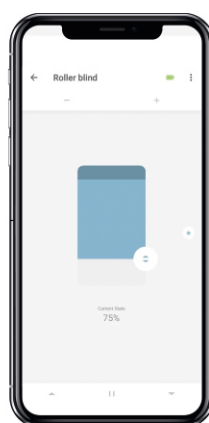

Simultaneous control of many roller blinds by easy to use Motion Blinds application. Make your home automated thanks to programmed operation modes and the timer. Control the interior climate by reducing the loss of thermal energy. Find proper balance between amount of light and privacy protection. Thanks to the Motion Blinds application you set optimal position of roller blinds and check the current battery charge

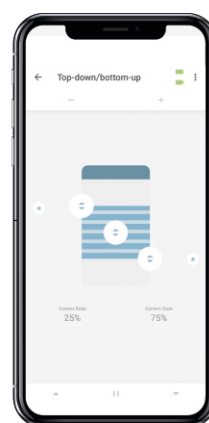

Set scenes with pre-set positions

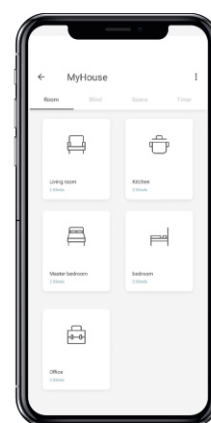

Add timers to automate scenes

Create rooms with multiple blinds

Send the blind to any desired position

Compatible with different types of blinds

Download the Motion Blinds application on a mobile device from the App Store or Google Play shop!

GENERAL TERMS AND CONDITIONS OF WARRANTY

- 1** SHADOW-SYSTEM Sp. z o.o. with its seat in Kawle Dolne 4F, 83-304, Przodkowo, hereafter referred to as Guarantor, warrants good quality and smooth operation of a new product, according to standards provided for a given type of products, subject to their intended use, under normal conditions.
- 2** SHADOW-SYSTEM Sp. z o.o. provides the warranty for:
 - 36 months from the date of purchase system for pleated blind, roller blind venetian blinds,
 - 12 months from the date of purchase of fabrics, wooden and aluminium slats.
- 3** The warranty covers only defects in product resulting from the Manufacturer's fault. For such it shall be deemed the use of defective materials, production faults and construction errors.
- 4** During a physical reception of product in the Guarantor's headquarter or on the product delivery day by a freight company, the Buyer is obliged to check the quality, dimensions and the completeness of delivered product according to the order, otherwise the right to make a complaint regarding quality and delivery completeness will be forfeit.
- 5** Upon discovery of a defect in a product, the Buyer is obliged to notify it to the Guarantor within 14 days. Failure to comply with anyone of the above-mentioned conditions will result in losing the warranty rights.
- 6** All claims under the warranty are considered in the Guarantor's headquarter only (SHADOW-SYSTEM Sp. z o.o., Kawle Dolne 4F, 83-304 Przodkowo). The Parties shall individually agree on the way for returning a product to the above headquarter.
- 7** The basis for making a claim under the warranty is a properly filled in warranty card, original bill of purchase (receipt or invoice) and a completely filled in complaint document.
- 8** The completed complaint form, scanned bill of purchase as well as comprehensive photographic documentation shall be sent to the e-mail address: info@shadow-system.pl
- 9** Guarantor is obliged to investigate the legitimacy of a claim under the warranty within 14 days after receiving a written complaint, and in case if visual inspection of goods with defect is necessary, within 14 days after the date of returning goods to the Guarantor's headquarter.
- 10** Guarantor shall not be liable in case of:
 - mechanical damage or damage due to misuse or negligent handling, storing or using under improper conditions,
 - natural wear and tear of original elements, parts and accessories caused by their normal use,
 - modification of original product and interference into its structure by third parties, as well as use of other spare parts or accessories than those recommended by the Guarantor,
 - any repairs made by unauthorised personnel,
 - mounting inconsistent with good construction practices and with manufacturer's instructions, ,
 - use inconsistent with the user manual,
 - smells emitted by the product, coming from components used for the production (e.g. natural smell of bamboo slats),
 - natural small plane deformation of aluminium slats, wooden slats and fabrics surfaces,
 - differences in shades and texture of wooden slats due to natural characteristics of timber,
 - discolouration and other changes on the surface of elements caused by weather conditions,
 - differences in colours between a ready-made product and an outdated sampler or catalogue,
 - maintenance, cleaning the products, battery replacement in electrical components,
 - damage due to random incidents (fire, flood, lightning, low or too high temperatures and any other natural disasters).
- 11** Products exceeding minimum and maximum recommended dimensions specified in the technical information shall not be subject to the General Terms and Conditions of Warranty and are made to the sole responsibility of the Buyer. In such case the Guarantor shall make every effort to provide a fully functional product.
- 12** If the complaint is accepted, the Guarantor agrees to repair or replace the defective product as soon as possible.
- 13** Should a repair or replacement be impossible or should it require excessive costs, the Guarantor undertakes to take defective product back and return the purchase cost.
- 14** If the complaint is accepted and it is impossible to remove the manufacturing defects of the aluminium slats, wooden slats or fabrics because of e.g. withdrawal from the offer within the warranty period, the Guarantor may suggest a replacement for a colour-similar component.
- 15** In case the complaint is rejected, the product is returned at the Buyer's expense.
- 16** The warranty for the consumer goods within the meaning of the Act of 27.07.2002 on specific conditions of consumer sales and on the amendment to the Civil Code (Dz.U. 2002/141/1176), shall not exclude, limit or suspend the Customer rights when the provided product is inconsistent with the purchase agreement.

MARKETING ADVERTISING MATERIAL

To meet the expectations and demands of the market, we provide our customers with advertising materials that effectively support sales. Catalogs with technical specifications of products, samples of textiles and lamellas, displays for product presentation – these are the most popular tools that our partners have been using for years. We also undertake custom projects. You can obtain more information by contacting our customer service.

COMPLETE COLLECTION OF TEXTILES

Each product category features a carefully curated collection of samples, where we take into account the latest trends.

MODULAR STRUCTURE OF THE CATALOG

Our catalogs are crafted in a modular way, allowing us to easily and quickly extract each fabric sample. This significantly simplifies the process of selecting materials for the intended space.

PREFERRED CONDITIONS

Our sales system ensures that every customer of ours can receive advertising materials free of charge!

SHADOW BOX

The Shadow Box showcasing our products is equipped with twelve frames that can be easily disassembled and used for customer presentations. We select fabric protection types and colors based on the customer's preferences. Such a personalized Shadow Box serves as an effective sales tool. Its aesthetic advantages and size make it ideal for large retail spaces as well as smaller project offices.
